E.R.P. End-user Recovery Project

Investigator

(Six FTE available - Full or Part-time)

SALARY RANGE: \$20.00 to \$25.00 per hour.

There will be a benefit package for fulltime employees. We are willing to consider job shares and flexible time off policies.

REQUIREMENTS

Retired or experienced law enforcement

A law firm in Seattle and Direct TV, El Segundo, CA, is pursuing manufacturers and dealers over illegal product. They have been serving these folks with a Civil Writ of Seizure from federal court. The law firm, assisted by US Marshals, serves the writs and seizes the company's files. Direct TV has decided to go after the end-users. They have hired Shrioc Associates to begin a project using retired/experienced police officers, because of their people savvy, to contact customers of the illegal manufacturers and dealers. These customers will be given the option to settle their case for \$3,500 or they will be sued in federal court.

This will be a full-time unit in the south King County area to process these civil actions. The method will be:

- Identify the offender from the seized customer database
- Send them a letter using Fed Ex for delivery
- Receive phone contact in response to the letter
- Interview and attempt to negotiate a settlement with those that respond
- Locate those parties that do not respond
- Prepare federal court paperwork and arrange service

If you are interested contact or email a resume to:
